

# GSICS space weather subgroup meeting

Nov. 08, 2023

# Today's Agenda

- Confirming action items
- Report from the members (if any)
- Action items
- Next meeting
- AOB

# Confirming action items

---

- 1. Hugh Evans to propose wording on the Work Plan to refine the target of defining a GSICS product into specific outputs: E.g. Initial GSICS deliverable (not requiring full definition of formats etc.); harmonized data levels, etc.**
- 2. Proposing method of near-real time and archival inter-calibration (Procedure of archival inter-calibration suggested by ESA (Piers))**
- 3. On the basis of working plan of space weather subgroup, the following action items are suggested.**
  - Please inform definition of data levels in each organization. (I already have information from ESA and NOAA.)**
  - Proposing application produced from multiple satellite data (Should we collect information from data user? It might be related to the activities of Task Group on the Improving Data Access in CGMS/SWCG.)**

# Report from the members (if any)

---

# GRWG SW Subgroup members (2023/11/08)

---

- Followings are the GRWG SW subgroup members;
  - CMA Cong Huang
  - ESA Piers Jiggins, Hugh Evans, Juha-Pekka Luntama
  - EUMETSAT Andrew Monham
  - KMA Dohyeong Kim , Jiyoung Kim, Daehyeon Oh
  - NASA (new delegate) -> Jim follow up who will be the representative
  - NICT Tsutomu Nagatsuma
  - NOAA Elsayed Talaat, Brian Kress, Juan Rodriguez, Christian Naylor, and Athanasios Boudouridis, Jim Spann
  - (SPARC Ingmar Sandberg)
  - (ROSHYDROMET Konstantin Ts. Litovchenko)
  - WMO Jesse Andres
  - ONERA セバスチャン
  - Paul O'Brien?
- We are still welcome to join the members from other organization including ET-SWx, WMO, **and non-member organization to provide specialist expertise**. So please nominate members.
- *I will report GSICS GRWG SWx Sub-group activities to WMO ET-SWx next week (11/15-16@Geneva).*

# AOB?
